DO WE NEED IMMIGRATION?

Editor
Charlie Wythe

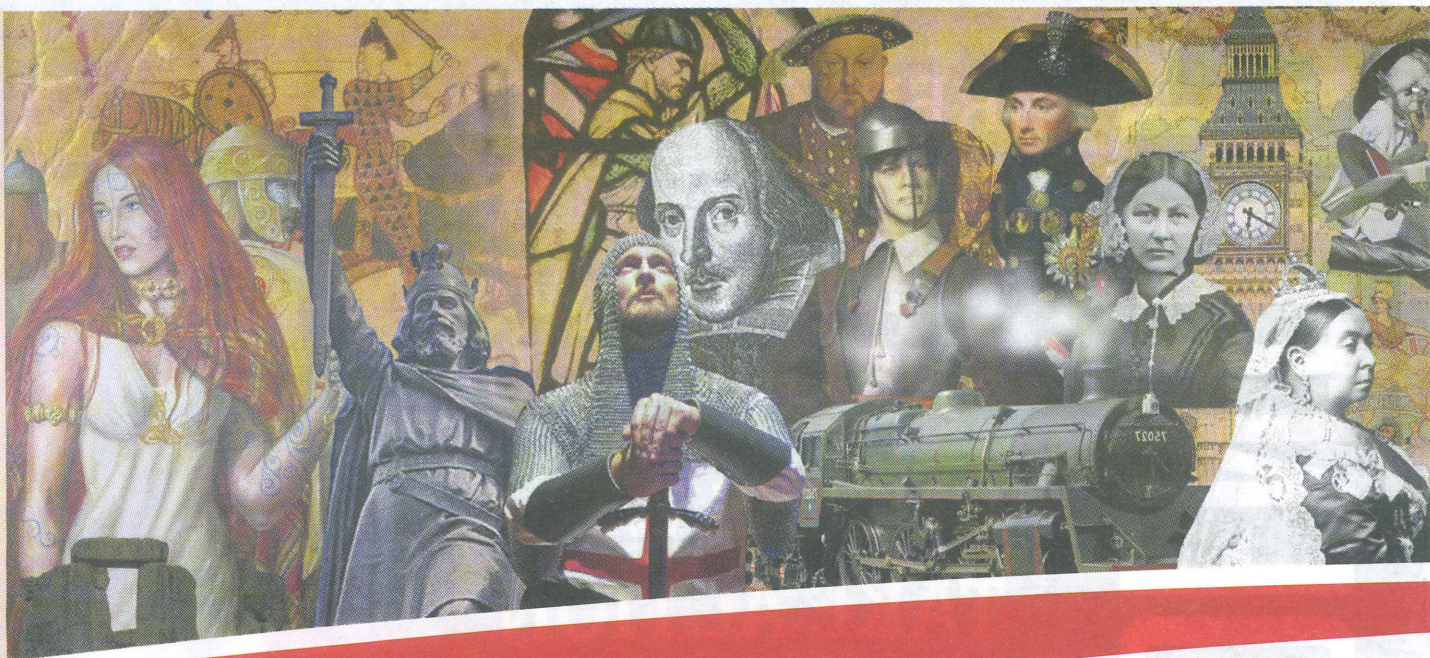

Without a doubt Immigration is the biggest threat to our country and the preservation of our precious and unique British culture and identity.

We feel like foreigners in our own country, with our traditions derided and our future given away. The relentless tidal wave of immigrants clamouring to reap the benefits of Soft-Touch Britain is rapidly reducing the British people to a second-class minority in our own homeland.

The BNP is the ONLY political party you can trust to stop and

reverse the destructive Immigration agenda of the politicians. In this issue, we explore the facts surrounding the Establishment's Immigration policy and why it is such a grave subject of concern for ordinary Brits.

IT'S UP TO US TO SAVE BRITAIN

We're not indebted to multi-millionaire investors with their own selfish interests, nor are we dictated to by union bosses. The BNP exists because of the generosity of the British people, that's the reason why the BNP is universally recognised as Britain's only genuine anti-Establishment political party and the reason why we answer ONLY to the British people

Whether it's resisting the Islamisation of Britain, opposing foreign wars which have nothing to do with British interests, campaigning to protect and rebuild our NHS, driving to renationalise our public services, fighting for the fair

treatment and welfare of animals, defying European Union dictatorship or fighting to protect the most vulnerable members of our communities – the BNP puts the interests of the British people first in our homeland every time, because charity begins at home.

The BNP will make Britain Great again

We've all been told that Britain and our institutions would fail without Immigration. It's a lie. Great Britain was built by the British people and would thrive without immigration

Bogus asylum seekers, sham marriages, 'refugee' crises, endless streams of EU immigrants, and full Third World extended families have flooded Soft-Touch Britain to become fully dependent on our over burdened welfare system for their every need. It's a disaster. With British people already a minority in some of our cities, the situation is so desperate that even rabid pro-Immigration advocates have declared their own Multiculturalism experiment a failure.

The British people have never had a chance to vote on immigration – yet it's the biggest political issue of our day.

To add insult to injury, their slanderous claims that our people are lazy and incapable are outrageous. Our people ARE good enough! The BNP has the total confidence that given the right training, opportunities and a government which encouraged them, our British workers and our children would gain the skills needed to fill all the skilled labour gaps in the market and be among the best and brightest in the world in their chosen professions.

The BNP proposes a 'radical' new approach – we will put the interests of the British people first EVERY TIME.

There is NOTHING to be gained from immigration. The BNP will:

- Close the borders and introduce a moratorium on all immigration until we can sort out the mess
- Leave the European Union and take back control of our borders
- Deport bogus asylum seekers and foreign criminals immediately
- Clamp down on sham marriages

“ The BNP's radical new approach is a sincere and genuine belief in the British people. Once the people recognise a British government which has every confidence in them, they'll begin believe in themselves once again. The BNP is has the moral integrity to rightfully put the British people first in Britain every time. ”

Adam Walker BNP Chairman

STRANGERS IN OUR HOMELAND

The politicians' immigration policy is a total shambles, so much so that official figures are largely guesswork, and often fiddled to make the crisis appear less severe

Identity under threat

In 1997, Tony Blair's New Labour government threw open Britain's doors to mass immigration. More than 2.2 million immigrants flooded into Britain under New Labour, with the overwhelming majority arriving from Asia and Africa.

In 2010, the Conservatives formed the Government. Despite their pledge to reduce immigration to 'hun-

dreds of thousands', they increased it by a whopping 94,000 in 2014 alone.

According to the Office of National Statistics, 2014 saw the entry of a further 636,000 more immigrants, smashing Labour's deplorable record.

Immigration cost the British taxpayer of at least £114 billion in the period 1995-2011
Migration Watch UK

With 307,000 leaving Britain that year, the net figure stood at 330,000.

One of the main driving factors of the surge in immigration levels under the Conservative Government was a flood of EU citizens attracted to Soft-Touch Britain.

Bred out of existence

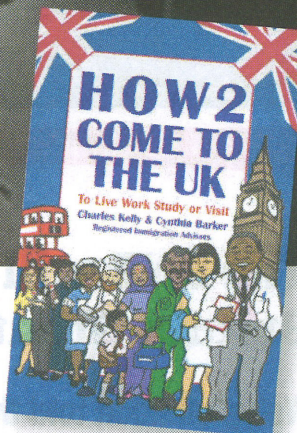

In separate figures the number of foreign-born people in Britain has topped 8million for the first time ever – that's one in every 8 people.

At this break-neck pace, and if BNP policy is not put in place to prevent it, the British people will become a minority in our homeland before disappearing into obscurity.

Question of numbers

Already in large areas of Britain, native Brits are a minority – in some, there are even streets and neighbourhoods where it's too dangerous for us to go

The politicians are actively encouraging immigrants to come to Britain at the taxpayers' expense

Putting aside the fact that our precious and unique British identity and culture is being steadily eroded away, there's also the fact that the British Isles only have a limited amount of space to accommodate a rapidly growing immigrant population.

The shocking reality is that England is *already* the third most densely populated country in the world, behind only Bangladesh and South Korea!

It's quite simple – Britain cannot go on at this rate. The BNP will bring an instant halt to *all* immigration into Britain until the situation is stabilised and we have regained control of our borders.

BRITAIN'S POPULATION OVER THE LAST MILLENNIUM

WORLD'S MOST DENSELY POPULATED COUNTRIES

Country	Populations (millions)	Individuals per sq km

ONS estimate

Years

Why is it happening?

It's quite simple, the politicians invited the hordes of immigrants to come to Britain. They continue to entice foreigners with promises of jobs, free health care, a better standard of living and benefits of all kinds – paid for by you and me, the British taxpayer – to such an extent that

Britain is known as a 'soft-touch'.

Flooding Britain with immigrants was the politicians' 'big idea'. Their last big idea was multiculturalism, and they were forced to admit that it was a total disaster and a complete failure.

The politicians are one of main the reasons why

Britain is being swamped.

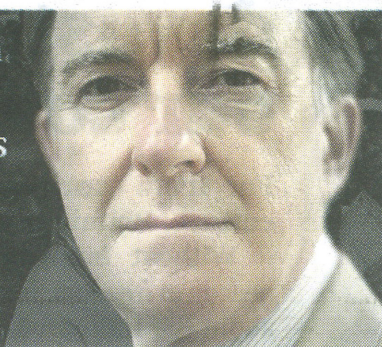

The free-flow of EU citizens has made the problem much worse, while the media manipulates public opinion and attacks any opposition.

We need a government which puts the interests of the British people first – that's a BNP Government.

Labour treachery

We 'sent out search parties' to Africa to draft immigrants into Britain to vote Labour

Peter 'Prince of Darkness' Mandelson
Ex-Labour Secretary of State

In 2013, Lord Mandelson admitted that during his time as Labour Cabinet minister under Tony Blair, the Labour Party purposely let immigration spiral out of control and sent out search parties to bring millions of African immigrants into Britain.

Annual net immigration soared by 65% in 2004 alone.

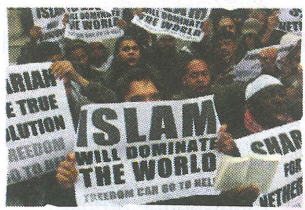

Overall the figure quadrupled during Labour's time in office

with a total net influx of 2.2million between 1997 and 2010.

Labour's current leader Jeremy Corbyn wants an open-door immigration policy which would flood Britain with even more.

Labour has betrayed the British worker and the British people. The BNP is the labour party your grandad voted for because we put British people first every time.

THEY HATE US AND THEY HATE OUR CULTURE

Everybody knows the problems associated with radical Islam but the BNP is the ONLY political party with the courage to deal with the problem.

The hard fact is that the old political parties have allowed a fifth column of Islamist jihadis into our country.

These people not only hate our culture and everything we stand for, but they want Britain to be an Islamic State and for us to submit to their foreign rule and barbaric ideology – or face death. In short, this is a deadly invasion of Britain – an Islamist timebomb which is literally set to blow up in our face.

The BNP is entirely opposed to the Labour/Conservative regimes' Immigration policy which, if left unchecked, will see Britain and most of Europe dominated by Islam within a few decades.

The BNP recognises that Islam, by its very nature, is incompatible

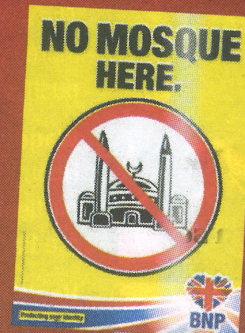

with modern Western democracy.

Rooting out Islamic extremists and Islamist Hate Preachers,

expelling them from Britain and shutting down radical mosques is a vital step towards protecting British citizens in our homeland.

NO to Islamisation

- ▶ Revoke British citizenship and cancel the passport of anyone who travels abroad to fight for terror groups
- ▶ Deny permission for any more mosques and minarets – which are little more than symbols of territorial conquest
- ▶ Ban the hijab and burqa
- ▶ Closely monitor teaching practises and curriculums in schools to stop the indoctrination of children
- ▶ Withdraw British troops from Muslim lands and stop interfering in the internal affairs of Islamic nations

Immigration is devastating our country

Far from 'enriching' and advancing our culture, Britain is sliding backwards.

Without Immigration, Britain became the beacon of freedom, liberty and democracy, brought about the Industrial Revolution that shaped the modern world, built the British Empire and became a world leader in science and literature.

Soft-Touch Britain has got to stop

It's a national disgrace that our heroic troops are denied benefits and housing, our pensioners freeze to death in winter, and millions of British children are forced to live in poverty while immigrants who have never served our country, helped or paid in a penny, are given everything. **It's unbelievable and morally reprehensible!**

Free healthcare, fully furnished housing, TV, mobile phone, spending money and even a window cleaner from the council? Sounds great, doesn't it! Sadly, you don't qualify. These benefits are only for immigrants.

It's a disgraceful betrayal of the British people by the politicians. But the problem doesn't stop there. Britain is renowned for being a soft-touch for immigrants, which is why hordes travel from all over the world, crossing numer-

ous countries to come to Britain to cash in at the expense of me and you, the British taxpayer.

See the proof here:
www.bnp.org.uk/asylum-seeker-hand-outs-leaflet

British Jobs for British Workers

The politicians have betrayed the British worker with their disastrous Immigration policy and by sending British jobs abroad

Our ancestors built our country, yet the Labour Party and the Conservatives have looted it and swamped us with foreigners. The Labour Party has spectacularly failed the British worker.

Only the BNP has the genuine interests of British workers at heart, and we are determined to restore to the British people that which is rightfully ours!

We'll end the wholesale looting and the

sending of British jobs and industry overseas, reopen the coal mines and begin rebuilding British industry.

Local people must be given jobs before immigrants every time. There ARE enough jobs for our people – British people want to work!

When we say: "British Jobs for British Workers", we mean it! We'll rebuild manufacturing industry and employ our own people first – every time!

- All government and local authority contracts to British firms employing local British workers
- Reintroduce proper 4-year-term apprenticeships providing young people with the skills they need to be self-sufficient and build themselves a career
- Stop the stream of unskilled immigrant labour which is undercutting and replacing skilled British tradesmen with substandard foreign labour
- End zero-hour contracts and provide British workers with job security

Terror threats UP

Islamist terror attacks on our streets are being stopped daily according to Scotland Yard with the terror threat now at 'Severe'

Animal cruelty UP

Millions of Muslims demand the inhumane and barbaric ritual slaughter of animals on religious grounds for halal meat

NHS waiting lists UP

Health tourism, EU immigrants and millions more from the Third World have stretched our NHS to breaking point

Unemployment UP

Unqualified and low-skilled workers are undercutting skilled British workers and putting our tradesmen out of business

Violent crime UP

Our once safe and civilised country is by witnessing the same level of horrors we find in the Third World

Level of Education DOWN

PC syllabuses have dumbed-down standards, while British children are force-fed all other cultures except their own

Rights for women DOWN

Backwards cultures have been introduced which have no recognition or respect for the hard-earned rights of women

Standard of living DOWN

The over population of our islands has increased competition for housing and pushed our institutions to breaking point

Wages DOWN

Unqualified and low-skilled workers particularly from the Eastern Europe are forcing wages down

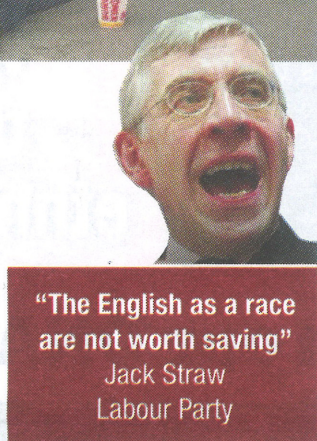

Health DOWN

Diseases have been reintroduced to Britain, Ebola is currently listed as the second greatest threat to Britain behind terrorism

Putting British people first every time

With millions unemployed, 1.6million children in Britain living in severe poverty, thousands of pensioners dying each winter because they cannot afford to heat their homes, and our heroic British troops denied benefits and

- ▶ Local people to be put first on housing lists
- ▶ British Jobs for British Workers
- ▶ Close the doors on immigration to reduce the demand for housing
- ▶ Provide British Veterans with the benefits they have earned and deserve

housing, it's vital that we rearrange our priorities. Only the BNP will put British people first in our homeland. Until the British people are collectively able to prosper in the nation that we have built, we'll turn immigrants away.

"There is no evidence of any clear positive economic benefit to the UK population from mass immigration" – Migration Watch UK

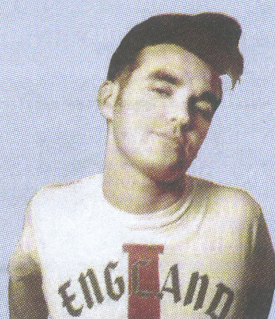

"We are being swamped by parasites. I would send them all back to where they came from."

Sir Patrick Moore
British astronomer

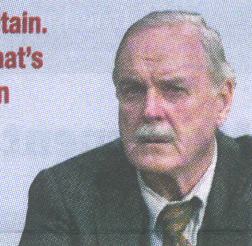

"With the issue of Immigration... it's very difficult because, although I don't have anything against people from other countries, the higher the influx into England, the more the British Identity disappears."

Morrissey
British musician

"I'm not sure what's going on in Britain. Or let me say this – I don't know what's going on in London, because London is no longer an English city."

John Cleese
British comedy legend

Responsible housing the BNP way

Did you know?

Over the last twenty years, more than 60% of the additional households created in Britain were headed by a foreigner. Over the last five years that figure has increased to 90% and is still rising.

To meet the immigration levels of 2014, it is estimated that Britain needs to build 240,000 homes a year, that's nearly 1 every 2 minutes – and that was before the 'refugee' crisis of 2015 hit!

Immigration has vastly increased the demand for housing, prompting greedy developers to try building over our precious greenbelt.

With its emphasis on the redevelopment of brownbelt land, our BNP housing policy is so advanced that the Conservative Government plundered it.

In the BNP, we're far more precious of our treasured British greenbelt than we are of our housing policy – as long as BNP policy is put into action, we can't blame our tired old rivals for stealing from us. With our commonsense, forward thinking policies, the BNP will continue setting the agenda and making a real difference.

OUR NATIVE HOMELAND

“Britain is a nation of immigrants!” That’s the anti-British mantra of leftists desperate to justify their destructive Immigration agenda. The DNA tells a different story.

The DNA of today’s indigenous British people is overwhelmingly that of the ancient Ice Age Britons, despite the coming and going of similar tribes and peoples from continental Europe according to expert geneticist Stephen Oppenheimer.

Oppenheimer’s groundbreaking genetic research revealed that the ‘Anglo-Saxon invasion’ contributed only a tiny fraction to the English gene pool.

Furthermore, three quarters of English people can trace an unbroken line of genetic descent through their parental genes from settlers arriving long before the introduction of farming.

Far from being a nation of immigrants, the British people are indigenous to the British Isles.

They wouldn’t dare deny the Chinese their indigenous status, so why do they deny ours?

Why do they deny me my ethnic identity?

Monument to our ancestors

Archaeologists date the construction of Stonehenge to around 4,500 years ago. It’s one of the greatest awe-inspiring wonders of the world and was conceived and built by our ancestors. It’s an ancient monument, to what we ac-

complish when we have a common purpose and sense of identity. They always tell us we need immigration – we didn’t need it to build Stonehenge, and we don’t need immigrants to make Britain great again.

Did you know?

The Welsh people have the highest concentration of direct genetic links to the earliest inhabitants of our isles. Welsh has now been relegated to the third most spoken language in Wales behind English... and Polish

Truth is in our DNA

While the DNA of the British people dates back to our Ice Age British ancestors, a scientific study has confirmed our kinship with our continental neighbours.

In 2015, scientists mapping the genetic make-up of Britain, brought to light the extent of our shared genetic composition with both the French and Germans.

The study found that the English share 25% of our genes with our German cousins and

45% with the French.

Interestingly, the genes we share with the French date well before the Norman Conquest of 1066, proving our common ancient decent and suggesting that we’ve been doing more than fighting our French cousins for thousands of years.

Our common ancestry comes as no surprise considering our isles share a similar name to that of the north west French region of Brittany, and that the English

Did you know?

The ‘Declaration on the Rights of Indigenous Peoples’ was agreed upon by the United Nations, International Labour Organisation and the World Bank. No wonder that no ‘white’ peoples have been afforded indigenous status

are, to this day, collectively referred to as Anglo Saxons – two tribes originating in modern day Denmark and Germany.

According to the study, the Romans and Vikings left no identifiable genetic footprint.

The findings have smashed the lies of anti-British leftist lobbies which have used their ‘British are a mongrel race’ slur to deny its peoples an ethnic identity and indigenous status to justify our demise through their Immigration agenda.

MYTH BUSTERS

Immigration has no benefits for Britain, in fact it costs the British people £millions each year

To justify their destructive agenda, pro-Immigration politicians, lobbies and media outlets resort to non-sequiturs, manipulation of figures and even plain lies. Here we bust their myths that immigration has any benefits to Britain:

CLAIM There are enormous economic benefits of migration.

REALITY There has been little or no positive impact on general living standards. The income of some low-paid workers is falling.

CLAIM Immigrants are needed to help fill half a million vacancies in the labour market.

REALITY Despite the influx, the number of vacancies has remained above 600,000 because immigrants use services too, increasing the numbers of jobs.

CLAIM Immigrants are needed to defuse the pensions 'timebomb' caused by an ageing population.

REALITY The argument does not stand up to scrutiny. Immigrants also grow old and, having lived and worked here, will be entitled to claim pensions too.

CLAIM Immigrants are harder working with a better work ethic.

REALITY Apart from being highly offensive, this claim is subjective and simplistic. In practice, a good work ethic means willing to accept low wages and poor conditions.

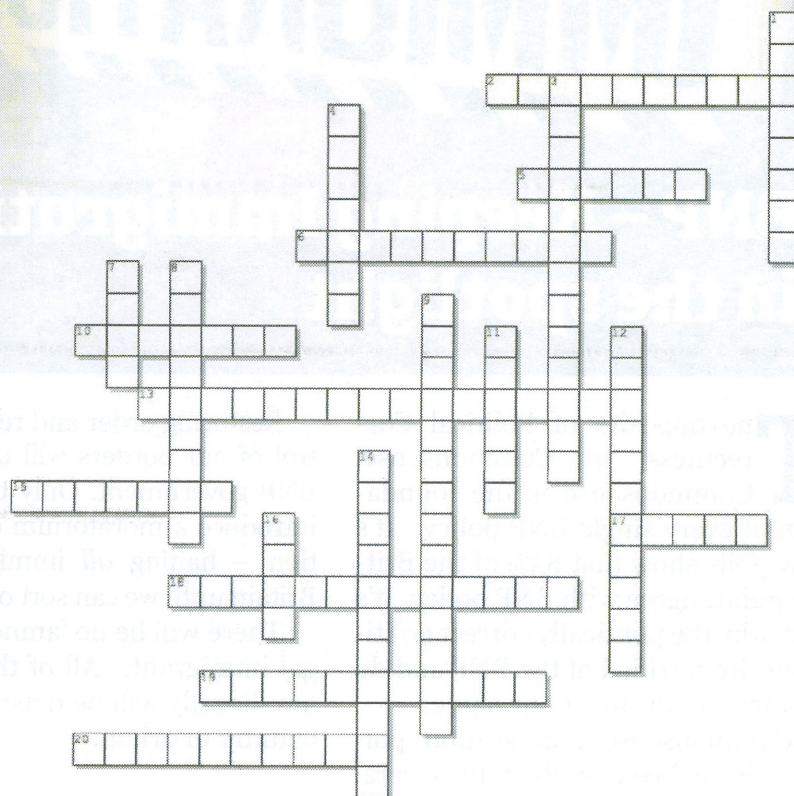

CLAIM The NHS would collapse without foreign nurses

REALITY We need foreign nurses only because of the level of immigrants using our services

IMMIGRATION

BNP – Keeping Immigration in the spotlight

The opposite of Political Correctness is Commonsense. Commonsense is the foundation of every single BNP policy. It's why polls show that 85% of the British public agree with BNP policy. It's also why the politically correct politicians are terrified of the BNP and do all they can to smear our name.

Commonsense immigration policies have been applied in several countries with great success, proving that it is by far the most humane and effective method of dealing with the problem.

Everybody knows that the immigration system in Britain is a complete shambles. In reality, the government has very little idea of who is here and who is not, because EU citizens are not registered when they arrive or leave.

Restoring order and regaining control of our borders will take a strong BNP government. Only the BNP will introduce a moratorium on immigration – halting *all* immigration into Britain until we can sort out the mess.

There will be no 'amnesty' for illegal immigrants. All of those in Britain illegally will be deported to their country of origin.

Did you know?

Contained in a report published in January 2000 by the 'Population Division' of the United Nations in New York, titled 'Immigration replacement: A solution to declining and aging population', Europe will need 159,000,000 immigrants by 2025 and it's the job of the United Nations along with the EU to make sure it happens.

Commonsense politics in action

Drop 'misplaced altruism' on Immigration or lose Europe forever says Australian ex-PM

"No country or continent can open its borders to all comers without fundamentally weakening itself," warned respected Australian ex-Prime Minister Tony Abbott at a London conference on the subject of the 2015 'refugee' crisis.

"It will require some force, it will require massive logistics and expense; it will gnaw at our consciences... yet it is the only way to prevent a tide of humanity surging through Europe and quite possibly changing it forever."

Referencing his successful policy of refusing illegal entry into his country – even turning

boats around and sending them home – Mr Abbott confirmed that it was the very best way of deterring others from risking their lives by traveling to claim the benefits of other countries.

"It's now 18 months since a single illegal boat has made it to Australia. The immigration detention centers have all-but-closed; budget costs peaking at \$4 billion a year have ended; and – best of all – there are no more deaths at sea."

"The Australian experience proves that the only way to dissuade people seeking to come from afar is not to let them in."

BNP – FIGHTING FOR OUR HEROES

Did our ancestors give their lives only for their descendents to be made a minority in their homeland?

Our ancestors gave their lives, and fought time and time again to win and protect our freedom, security, identity and democracy. They fought to hand down to us, their descendants, a country in which we could determine our own over future free from tyranny.

Today, 75% of our laws are dictated to us by the European Parliament from Brussels and the British people forced into tolerating an invasion through relentless mass immigration. Our people are being manipulated by the media, the government, councils and education, while our

children are fast becoming an ethnic minority in their classroom.

The fact that 'Mohammad' has become the most popular baby name for the second year running in Britain, proves the level of betrayal by the politicians.

"A great many concerned people have told me that their parents or grandparents would be turning in their graves if they saw the state the politicians had reduced our country too," said BNP Chairman Adam Walker.

The BNP is continuing the fight, what are you doing to save our country.

Our culture and heritage is our strength

For the politicians, immigration is simply a question of economic figures and quotas. The BNP thinks differently. We recognise that the well-being of a nation requires a shared, firm sense of identity, a common ancestry, which brings with it a natural respect for fellow countrymen and binds a community. Immigration tears the very fabric of this community and destroys our collective sense of self.

Our bloodties, ancient heritage, rich culture and our noble sense of fair play went into building a country the envy of the world over. We, the British people, did it all ourselves!

There's nothing to gain from immigration – there's everything to lose! That's why the BNP will halt and reverse the politicians' disastrous Immigration agenda.

More and more British Heroes are fighting on even after they've gone by leaving a gift to the BNP in their wills

On a recent trip to the South West on Party business, BNP Chairman Adam Walker and National Treasurer Clive Jefferson took time out of their busy schedule to tend the grave of lifetime BNP member and Parliamentary candidate, James Connolly.

James was a London railwayman who was horrified at the devastation of his city and

country by Immigration.

Like many others, James understood that only the BNP has the integrity and courage to restore his beloved country. When he died in 2012, he left his entire estate to the BNP, safe in the knowledge that we would continue our fight in his name.

James joins our growing Roll of Honour of British patriots who'll never be forgotten.

FIGHT ON
AFTER YOU'VE GONE

If you've included the BNP in your legacy, please let us know

You can do something very special for our country while guaranteeing your place in the history of our nationalist struggle. By leaving a gift in your will to the British National Party, you enable us to continue the fight. The BNP can provide FREE advice on how to make your will.

The government could end up with your money if you don't have a will...

So to find out how you can carry on the fight even after you've gone, call Clive Jefferson today on 0844 809 4581.

"It's never too late to save your country"
